JOEMAR QUESTADIO

(234) 346-3215 | jcqportfolio.vercel.app | github.com/raam221027

SKILLS

- **Frontend:** React JS, TypeScript, JavaScript, Tailwind CSS, shadcn/ui, Bootstrap, HTML5, CSS3
- **Backend:** PHP, Laravel, Eloquent ORM, RESTful APIs
- **Databases:** MySQL, Microsoft SQL Server
- **Development Tools:** Git, GitHub, VS Code, Postman, Vite, Figma
- **AI-Assisted Development**: Claude Code
- **API Integration**
- **Additional Knowledge**: Java, Machine Learning

EXPERIENCE

SOFTWARE DEVELOPER INTERN – Department of Information and Communications Technology (DICT) REGION 10

Jan 2024 - May 2024

- Developed the HRMIS Daily Time Record (DTR) module to automate employee attendance tracking.
- Integrated ZKTeco face recognition devices so employees could time in and out using facial recognition, with attendance records reflected in real time on the admin dashboard.
- Set up the Microsoft SQL Server database to store and manage employee attendance data.
- Designed user-facing interfaces, including the homepage and login page, and authored technical and user documentation.

DATA ANNOTATOR LIDAR SEMANTIC SEGMENTATION - Qomunica I.T. Solutions | Contract, Remote

Mar 2021 - Sep 2021

- Annotated 3d lidar point cloud data for semantic segmentation, labeling objects such as vehicles, pedestrians, roads, and structures to train machine learning models for autonomous systems.
- Ensured labeling accuracy and consistency by adhering to strict annotation guidelines and quality standards, contributing to reliable training data for machine learning models.

INTERNET CAFÉ ATTENDANT - Igot Computer Parts and Services

2016 - 2017

- Assessed customer needs and troubleshot basic PC issues to reduce downtime.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Southern Philippines College | Cagayan de Oro City, Philippines | 2024

PROJECTS

- **Videokehan** – Multi Device Karaoke Web App | Personal Project | 2026
  Built and deployed a real-time web app for shared karaoke sessions across multiple devices. Live: videokehan.com
- **Food Kiosk Self-Ordering System** - Capstone Project |2023 – 2024
  Developed a self-ordering kiosk with receipt printer integration; awarded Programmer of the Year 2024.
- **Food Kiosk V2** – Personal Project | In Progress
  Rebuilding the kiosk system with improved features, using AI-assisted development tools to speed up development.

AWARDS

Programmer of the Year | Southern Philippines College | 2024

CERTIFICATIONS & TRAININGS

- Basic Web Development using CodeIgniter and ReactJS | 2023
- Introduction to Web Designing Using HTML5 and Bootstrap | 2023
- Introduction to QA Software Testing | 2023
- System Testing and Evaluation | 2023
- Introduction to Server Configuration and Management | 2021
- Python + Django Framework | 2021
- Cybersecurity Trainings (Knowledge Quest; Digital Defense) DICT Region 10 | 2024
